LIFE AMPLIFIED

# MAKE THE NEXT MOVE

AE8, the first high-performance and urban-style electric motorcycle of ZEEHO brand, is trying to create much more than just a scooter for riders.

## ZEEHO

THIS IS ZEEHO

The ZEEHO logo is transliterated from the Chinese brand name “极核(Jihe)” which means “extreme” and “core”.

The "double E" symbol implies the brand attitude to break the rules, to be different - without compromise.

LIFE AMPLIFIED

ZEEHO

# AE8 S+

① 0-50km/h acceleration\*  
**2.6s**

② Max. speed  
**>100km/h**

③ Range\*  
**100km (WMTC)**

④ Charge time (1900W/750W)  
**2.5/5 hr (0-80%)**

⑤ Peak. power  
**12.5kW**

\*2.6s (0-50km/h) is the bench test from laboratory, actual road performances might vary according to circumstances.  
\*The range of 100km is the result of the test under WMTC standard, with conditions of the participant's weight of 75kg, and temperature of 25°C.  
It will be affected by a variety of factors such as load, temperature, speed, road surface and riding habits.  
\*Please refer to the details of actual product and its parameter.

## TECH DRIVEN DESIGN

AE8 design is inspired by explosive sci-fi armor, driven by technological mecha. It breaks the constraints of traditional moped design with stunning craftsmanship, giving it a dynamic combat look.

- **Mech face**

The front face adopts a combination of split V-shaped LED headlights contours and powerful-looking side wings, showing a strong sense of combat mecha style.

- **Crossbow body**

The body combines the functional form of the semi-crossbow design, which giving a strong presence of power and more stable riding posture.

# LED LIGHTS

- **Split automatic LED headlights**

The designed LED headlight can automatically turn on and off according to the ambient brightness, penetrating the night and shining like a mecha during the day.

- **Sharp signals**

Combining the design inspiration of battleship wings, the turn signal group has a three-dimensional hollow shape. The thick-walled light guide tech brings a car-level signal effect, making it safer in traffic.

- **Integrated tail lights**

The integrated stealth tail light; light up synchronously when braking.

As good as a 150cc petrol scooter.  
Acceleration is equal to a 250cc petrol scooter.

## Z-CORE MID MOTOR

- Quiet and agile, the counterweight is more coordinated, extremely explosive, maximizing the release of vehicle performance.

- Peak power: 12.5kW  
Driving wheel torque: 218N.m  
Electric motor efficiency: 92%

# EXTRA LONG RANGE HIGH-PERFORMANCE BATTERY

The 69V27Ah dual portable pack design.  
Charge time (1900W/750W): 2.5 / 5 hours (0-80%)  
1900W charger is the after-market accessory.

Range \*

**100km (WMTC)** |

\*The range of 100km is the result of the test under WMTC standard, with conditions of the participant's weight of 75kg, and temperature of 25 C. It will be affected by a variety of factors such as load, temperature, speed, road surface and riding habits.

# BREMBO CALIPER

Brembo calipers + Bosch dual channel ABS,  
safe and solid braking performance.

- **Solid braking performance**  
Braking distance: 25m (60-0km/h).
- **Adjustable**  
Adjustable handle to match different needs.
- **Brake**  
Front: dual pistons Brembo calipers.  
Rear: single piston caliper.

ABS for AE8 S+ and AE8+.

# ADJUSTABLE REAR SHOCK ABSORBER

## Superior stability

AE8 S+ is equipped with **5-level adjustable shock absorber and adjustable rebound damping.**

AE8+ is equipped with **adjustable rebound damping.**

# CST ENERGY - SAVING TIRES

## Low rolling resistance

Tuned for balance,  
extending range and grip.

High-strength CMT made steel alloy, 50+ three-high stress tests, 50000km endurance test. Quickly adapt to harsh environments.

# FRAME RIGID WITH TENACITY

- **All aluminum swingarm**  
The rear swingarm is made of aluminum alloy. The CNC process gives it an exceptional finish, light weighted, enhanced handling.

# Easy Ride!

Enhanced human-to-vehicle interaction, quick start, supporting a more effortless interactive experience.

- Bluetooth unlock
- APP unlock
- NFC card unlock
- Automatic hold
- Adjustable seat sensor

# OTA FIRMWARE UPGRADE

OTA firmware upgrade in real time, help achieving best performance of the bike.

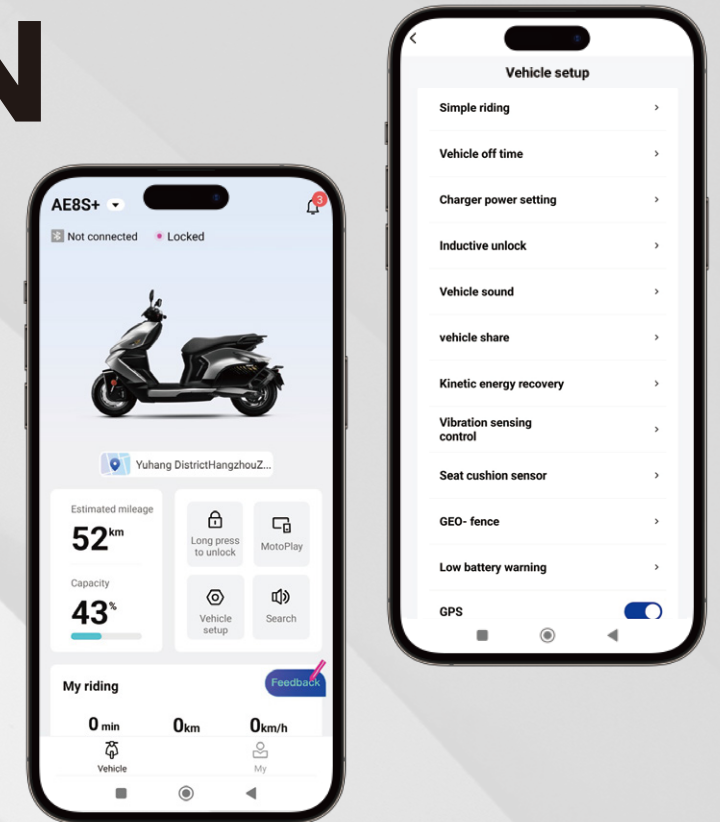

# INTELLIGENT INTERACTION

5-inch LCD HMI and ZEEHO RIDE personalized settings to customize your riding experience.

**3 riding modes:**  
ECO, STREET and SPORT

**Adjustable intelligent settings:**  
Sound effect volume  
Kinetic energy recovery  
Follow Me Lights  
Bluetooth connection distance (coming soon)

# 360° ANTI-THEFT PROTECTION

GPS is not only for anti-thief, but extra secure on your ride.

Adjustable vehicle alarm sensitivity.

## MULTIFUNCTIONAL POSITIONING SENSOR

- **Equipped with 6-axis gyroscope**  
Real time alarm.
- **SOS when accidental situation**  
Active warning of possible collision. When the vehicle collides or overturns during riding, it will activate the emergency notification via SMS.

# ERGONOMIC ALL-WEATHER CUSHION

800mm+ fine made ergonomic all-weather cushion.

# AUTOMOTIVE - GRADE WATERPROOFING

All the vital electrical components use automotive-grade waterproof connectors that support IP67 protection, and the 300mm wading height provides superior protection in rainy or snowy conditions.

# ACEB+

## FEATURES

High level buttons

Continental belt transmission

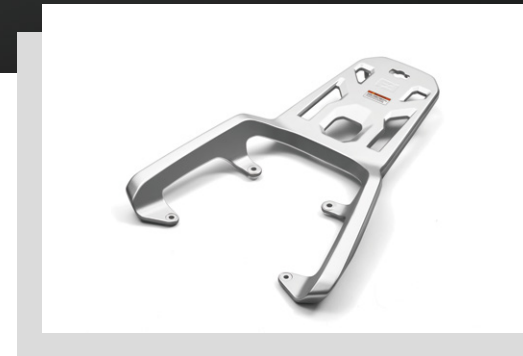

Hidden rear pedal

Aluminum alloy front pedal

Front storage box  
TypeC/TypeA dual charging ports

## OPTIONAL REAR ARMREST AND TAIL BOX

Unlock more usage scenarios.

Starship silver

Eclipse silver

Pearl white

Meteorite black

## AE8s+

Dimensions:	1900 * 735 * 1090mm	Suspensions:	front: hydraulic shock absorption	OTA	✓
Wheel base:	1380mm		rear: preload adjustable shock absorber	Proximity guarding	✓
Accelerate*:	0-50km/h in 2.6s	Brake:	front: dual pistons Brembo calipers	Side-stand/cushion sensor	✓
Range*:	100km (WMTC)		rear: single piston caliper	Smart lock	✓
Battery:	69V27Ah*2 Lithium	Tyre:	front: 100/80-12 (CST)	Adaptive lighting system	✓
Motor:	mid motor		rear: 120/70-12 (CST)	Easy Ride!	✓
Max speed*:	>100km/h	ABS:	Bosch dual channel	Body color	starship silver
Peak power*:	12.5kW	Dashboard:	5" TFT		eclipse silver
